SUSTAINABLE SURFACES

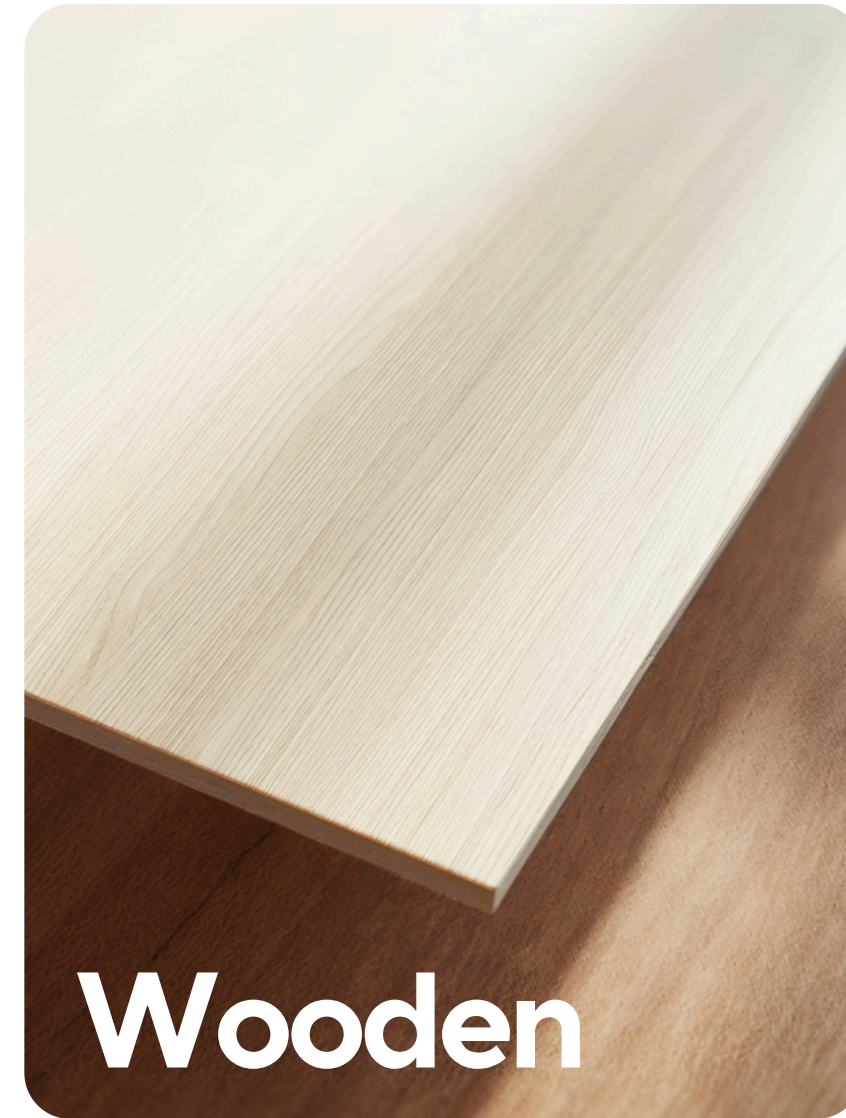

General Collection

Unicolors consists of a comprehensive selection of colours subdivided into 4 tone groups: whites, neutral colours, cold colours and warm colours.

Marble, granite and stone are offered in a choice of 8 colour nuances which, combined with a selection of finishes developed specifically for this range – polished, matte and three-dimensional patterns – create a highly effective collection which faithfully recreates the tactile and visual qualities of these natural mineral materials.

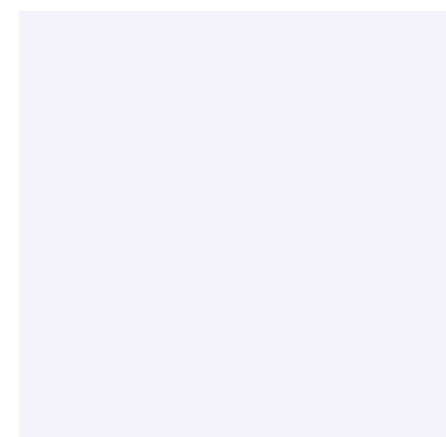

This collection consists of laminates which replicate the warmth and timeless natural beauty of the definitive material for décor and furnishings: wood.

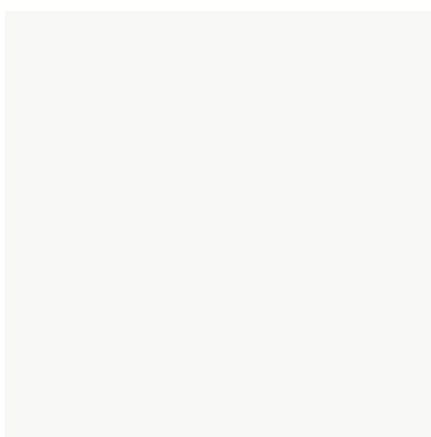

The Materials range of surfaces, with breathtakingly authentic decorative effects inspired by materials embellished by the hand of time or by expert artisans.

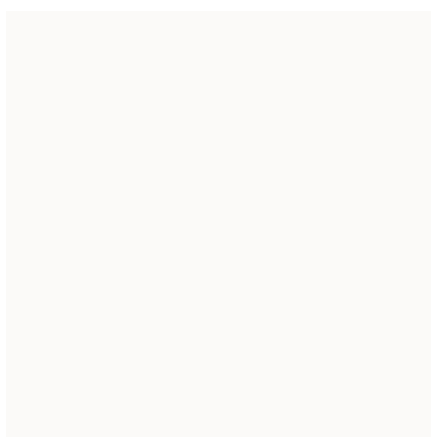

Unicolors - WHITE
